

Privacy Policy

Last updated: 1st April 2025

1. Introduction Protecting your privacy is crucial for IPTV Xperience. We are committed to collecting only data strictly necessary to improve our application, always acting in your best interest. This policy clearly outlines the data we collect, how we use it, and your rights regarding this data.

This policy complies with the French Data Protection Law No. 78-17 of January 6, 1978, and the General Data Protection Regulation (GDPR) No. 2016/679.

2. Definition of Personal Data Personal data refers to any information related to an individual that can directly or indirectly identify them (e.g., name, email address, IP address, identifier, etc.).

3. Data Collected by IPTV Xperience IPTV Xperience does not collect any personally identifiable information from its users.

We solely utilize Firebase Analytics and Firebase Crashlytics for technical purposes:

- Analyzing application usage
- Detecting and resolving technical issues

These data are anonymized, technical, and cannot personally identify users.

4. Purpose and Legal Basis for Data Processing The collection of anonymized technical data by IPTV Xperience aims exclusively to enhance application stability, performance, and user experience. The legal basis for this collection is our legitimate interest in ensuring the proper functioning and continuous improvement of the application.

5. Responsibility for Content IPTV Xperience does not provide any IPTV or video content. The app allows users solely to add their own content exclusively from legal sources. IPTV Xperience neither endorses nor tolerates the use of illegal content and disclaims any responsibility related to the legality of user-added content.

6. Third-party Disclosure IPTV Xperience never sells personal data to third parties. The anonymized technical data collected is not shared with any third party beyond the Firebase tools used exclusively for analytics and error correction.

However, we may disclose information if officially requested by competent judicial or administrative authorities.

7. Data Security Data security is paramount. IPTV Xperience implements stringent technical measures to protect all anonymized collected data against unauthorized access, alteration, disclosure, or destruction.

8. Hosting All anonymized technical data collected by Firebase Analytics and Firebase Crashlytics are stored and processed on secure servers managed by Google.

9. Your Rights Although IPTV Xperience does not collect personally identifiable data, you have the right to request clarifications or additional information about anonymized data processing by contacting us directly.

You can contact us at: contact@rthlabs.com

10. Data Controller The data controller for data collected by IPTV Xperience is:

RTH Labs

Email address: contact@rthlabs.com

In case of disagreement regarding data management, you may file a complaint with the competent authority (in France, the CNIL).

11. Policy Updates This privacy policy may be updated periodically to incorporate new information or clarifications. Significant changes will be communicated via this page.

12. Effective Date This privacy policy came into effect on 1st April 2025.
