Privacy Policy for Race Dashboards Simracing

This privacy policy governs your use of the Race Dashboards Simracing application ("App") available on the App Store. This policy outlines how we handle information collected and processed through the App.

Compliance with Data Protection Laws
We are committed to complying with the General Data Protection Regulation (GDPR) and other applicable data protection laws globally. We take the privacy and security of our users' information seriously and have implemented measures to ensure compliance.

Information We Collect
The App uses Firebase Analytics and Crashlytics, through which we collect anonymized technical data such as device type and usage statistics. This data does not personally identify users. We do not require users to create an account or provide personal information to use the App.

Use of Information
The collected data is used to improve the App's performance and user experience. We do not sell, share, or disclose this information to third parties.

Consent
By downloading and using the App, users consent to the data practices described in this policy. There is no separate prompt for consent within the App.

Data Security and Retention
Data collection and security are managed through Firebase, which employs its own security measures and data retention processes.

Changes to Our Privacy Policy
We may update this privacy policy periodically. Users will be notified of any changes through the App Store.

Contact Us
